MASSAGES

Aim at offering an outstanding massage therapy experience, we are proud of our collaboration with Mr. Michel Van Waeyenberge, founder of ATTITUDE, the only massage therapy school in Quebec City who's graduating massage therapists are certified by the Quebec Federation of Massage Therapy.

Attentive and experienced massage therapists

The massage therapists chosen for our guests at l'Auberge Saint-Antoine are passionate and highly skilled, their intervention is directed towards the respect and the needs of their customers. They will be able to offer you a wide range of specialized therapeutic massages such as:

AMMA **

This approach, the precursor of shiatsu, is the traditional Japanese massage. Performed without oil, it is carried out by handling the various specific points on the body using rhythmic pressure of the thumbs and hands, stretching, rocking, tapping and energetic sweeps. This massage, in addition to being relaxing, stimulates, releases and circulates energy and gives renewed vitality.

CALIFORNIAN

This massage is a tactile experience that reconciles the body, mind and emotions. Combined with oil, it is characterized by its enveloping through long massage movements and deep kneading. It sculpts the body and helps to reconnect with oneself. Blood circulation is improved as well as the drainage of toxins and the released energy flows better. The sensation of oil on the skin, the soothing atmosphere and the attentive ear of the massage therapist make this experience a great occasion to reconnect with oneself and to give oneself well-being.

MOMENTUM

Combined with oil, with no set sequence, the Momentum massage is an intuitive approach, slow and deep with long, flowing movements, stretching, bending and wide twisting. All these movements are performed slowly and adapted to the needs of the recipient. Momentum massage is an experience that refocuses the body and provides deep relaxation of the being in its entirety.

SWEDISH

A physical approach with oil combining firmness and softness. This technique includes a series of manoeuvres applied briefly on all body parts in a precise application and order. Swedish massage is performed mainly on the muscles and affects the nervous system.

AUBERGE

SAINT-ANTOINE

The benefits of massage are many and affect all facets of the person, on both a sensory and psychomotor (awakening to the senses and perceptions) as well as on a psychological and emotional level (emotional awareness and resistance to stress).

Whether you are looking for a relaxing massage or a therapeutic one, our therapists have mastered different approaches to offer you a complete massage experience.

Choose the date and time that best suit you and we will take care of your reservation. The massage therapist available at that time will offer his or her specialties.
