MASSAGES

Aim at offering an outstanding massage therapy experience, we are proud of our collaboration with Mr. Michel Van Waeyenberge, founder of ATTITUDE, the only massage therapy school in Quebec City who's graduating massage therapists are certified by the Quebec Federation of Massage Therapy.

Attentive and experienced massage therapists

AMMA **

This approach, the precursor of shiatsu, is the traditional Japanese massage. Performed without oil, it is carried out by handling the various specific points on the body using rhythmic pressure of the thumbs and hands, stretching, rocking, tapping and energetic sweeps. This massage, in addition to being relaxing, stimulates, releases and circulates energy and gives renewed vitality.

RELAXATION

Energetic and relaxing, this massage combines firmness and softness to reduce tension and firm up muscles. It is the ideal solution to obtain a feeling of physical and mental well-being. Also called relaxation massage, it acts directly on the muscular tissues and the nervous system. It is therefore perfect for obtaining an energy balance and improving stress management.

THERAPEUTIC

The purpose of this massage is to relieve muscle or joint pain by targeting a specific local area. By working on muscle chains and tensions, therapeutic massage is the perfect solution when suffering from discomfort or pain. It is also interesting for those who wish to prevent the onset of muscular or articular problems. It also helps to reduce stress.
