## Auberge Saint-Antoine Quebec City

Explorer Jacques Cartier found stones so brilliant in what would later become Quebec City, he thought they were diamonds. It's a great metaphor for this gem of a place, without question North America's most European city. People come to historic Lower Town in Old Quebec City to explore its cobblestone streets and superb shops. Boutique inn Auberge Saint-Antoine in Quebec City's Old Port district is an ideal home base for this. Built atop a real archeological dig called Îlot Hunt, fascinating objects from the 1600s now decorate this urbane hotel. And the farm-inspired restaurant Chez Muffy is excellent. "It's a museum hotel," says Maître de Maison Dagmar Lombard. "We're very contemporary. All of our rooms and their artifacts tell a story."

## Royal Blues, Royal Treatment

An hour north of Miami is the easy, breezy town of Deerfield Beach, Fla. West Palm Beach architect Jorge Garcia designed the Royal Blues Hotel here with clean lines and ocean fluidity. The vision of film producer Edward Walson, this hidden jewel is a design lover's dream from the lobby and wine bar to cinematic views throughout. Rare artworks and items on display from the owner's personal collection include Bob Dylan's classic photographs and paintings from famous artists the world over. This is a great time to visit Royal Blues Hotel: October 2019 marks the property's five-year anniversary. Guests can look forward to special rates, VIP tours "and lots of champagne toasts," says General Manager Diego Sena.
